

Running A Fever?

Cooling System failure is the #1 cause of highway breakdowns.

That's why many car manufacturers recommend replacing your coolant every 2 years or 24,000 miles (38,000 km).*

* Except for extended life coolants.

Checking & properly maintaining your cooling system can prevent problems before they leave you stranded.

Cool-Rite Helps:

- ◆ **Rapidly Remove Rust & Scale**
- ◆ **Protect Against Coolant Leaks, Corrosion & Wear**
- ◆ **Maintain Warranty Requirements**
- ◆ **Protect Against Breakdown**

Cool-Rite

Clean and protect your cooling system with a complete Cool-Rite Service and you'll be protecting your peace of mind!
