Calidad Automotive Technical Products (C.A.T. Products, Inc., known as Run-Rite) provides specialty cleaners, lubricants, additives and equipment to the professionally installed automotive service markets. We constantly attack our own products in the continuous quest for excellence. As automotive technology continues to evolve and change, our research and development team recognizes the need to always “look for a better way.” We understand that bringing the best products to the market is a process, not an event.

By partnering with the leaders in Fuel Additive Technology, our formulas are second to none in the industry.

Often imitated but never duplicated, our “Products, Programs & People” have continued to generate profitable results for our customers. Our commitment to customer service excellence is unwavering, as is our integrity, our quality and our drive to succeed. We look forward to continuing to serve you and appreciate your business. The road ahead is exciting, so stay tuned, fasten your seat belts, and set your business GPS in the ‘Rite direction!
Our product line is constantly expanding. For the most current product information or to download an electronic catalog file, please visit our web site. Run-Rite has available and repairs most competitive equipment. If you desire to purchase equipment or need an equipment repair please call us “for all your Fluid Maintenance needs.”
Run-Rite Multi-Step Fuel System Cleaning Kits
Available in 2, 3 and 4 step kits and service packs, Run-Rite formulas are proven to remove carbon buildup from injectors, valves and combustion chambers. Run-Rite loosens and removes gums, coking, dirt and deposits from the engine to provide better performance and fuel economy in modern engines and fuel systems. Our formulas are LOW VOC Compliant and utilize the finest detergent additives available. They DO NOT CONTAIN ALCOHOL or METHANOL. Available in the following configurations:

Cases: 3 & 4 step kits sold 8 kit boxes per case. 2 step packs are shrink-wrapped (do not come in the sales box) and sold 12 packs per case.

Run-Rite DIESEL Fuel System Cleaning Kits
Available in both 2 and 3 step kits as well as 3 and 4 part service packs. Bio-Diesel compatible, low sulfur formulas. LOW VOC Compliant!

Run-Rite Starter Kit - Part No. 9915
Everything you’ll need to introduce the Run-Rite Fuel System Cleaning service to the customers in your store!
Includes: 9600 Installation Tool, 9700 Throttle Pedal Depressor, 200 Brochures, Wall Poster, Counter Mat, Counter Card, Tech Bulletin Binder.

Zoom Quick-Service Fuel System Cleaning Kits
Designed for the Quick-Service Marketplace. Delivers excellent fuel system clean-up results with reduced service times. Available in both 2 and 3 step kits, the ZOOM formula is especially designed for the service centers where time is critical! LOW VOC Compliant! NON-FLAMMABLE! Does NOT contain Alcohol or Toluene. Available in the following configurations:

SLEDGEHAMMER! Fuel System Ultra Treatment

Part No. 1512
16 fl. oz. per bottle, 12 bottles per case

Part No. 1510
12 fl. oz. per bottle, 12 bottles per case

Guaranteed to improve fuel economy!

A “double espresso” shot of the highest concentration of superior detergent additives, designed to drive out dirt and deposits! Rapidly removes deposits from fuel injectors, intake valves, ports, and combustion chambers. The “Hammer” helps reduce emissions, improve acceleration and reduce octane requirements. It does NOT contain: Alcohol, Methanol, Aromatic Solvents or Chlorine!

Hit their car with a Sledgehammer and make it Run-Rite!

Run-Rite FUEL SHOT!

Part No. 1101
24 shots per case

Highly advanced Nano Technology that can significantly improve fuel economy for up to 5,000 miles!

RECOMMENDED: Every 5,000 miles or with each oil change.

• Provides advanced, fuel-delivered lubrication
• Improves Fuel Economy for up to 5,000 miles!

Easy to use! Simply squeeze the complete contents of the syringe into the fuel tank and that’s it!

Why is this product delivered in a syringe? The proprietary Run-Rite formula contains a concentrated friction modifier in its pure form. In cool temperatures it's viscous, so the syringe method of delivery helps ensure that all of this highly potent additive makes it into the fuel tank (rather than some staying in the bottom of a bottle).

The INTAKE SNAKE!

Snake Tool: Part 9710 - 1 tool

Snake Heads: Part 1310 - 2 snake heads per tube, 6 tubes per case

Snake Heads: Part 1330 - 1 snake head per tube, 12 tubes per case

The award winning way to clean the throttle body, throttle plate and intake tract. Provides easy access to difficult to clean throttle bores. Snake Heads are disposable presoaked cleaning pods that easily attach to the end of the tool, and are formulated to “eat up throttle deposits.” Safe for coated and sensitive parts. Non-flammable. Disposable in ordinary trash receptacles.

Rapid Induction Deposit Cleaner (R.I.D.)

Part No. 1296
8.25 oz. per can, 12 cans per case

LOW VOC Compliant! R.I.D. is a brand new aerosol induction cleaner. It has been designed for SUPER-FAST SERVICE TIMES! Safe for Oxygen Sensors, Catalytic Converters and Coated Components. No Chlorinated Solvents.

See the “Equipment” section for new optional specialty tools!

Run-Rite Premium Diesel Treatment

Part No. 1427
12 fl. oz. per bottle, 24 bottles per case

A powerful multifunctional product designed for diesel engines. It delivers the highest level of detergency while providing many additional benefits. It cleans injectors, pumps and pistons and helps keep them clean! Adds lubricity and fights corrosion. Helps improve cetane, reduce emissions and smoke, and improve the overall drivability of diesel vehicles. Surpasses Peugeot XUD-9, Volkswagen TDI (injector nozzle coking) tests.

Run-Rite Diesel Induction System Cleaner

Part No. 1416
32 fl. oz. per bottle, 12 bottles per case

Designed to remove induction and EGR passage deposits. It contains a specially formulated blend of solvents, detergent additives and dispersants which will quickly, effectively and safely remove varnish, carbon and fuel residue deposits from the induction system. This will help restore proper air flow and performance. Also helps dissolve carbon and varnish from the EGR port, intake manifold, valves, pistons and combustion chamber.

Run-Rite Diesel Lubrication System Cleaner

Part No. 1401
32 fl. oz. per bottle, 12 bottles per case

Formulated to remove carbon & varnish, clean the ring-land area and restore cylinder balance. Run-Rite Diesel LSC also lubricates and protects critical components. Its oil based detergent formula is designed to loosen and suspend varnish and sludge deposits and is safe for elastomers and seals. Helps improve performance.

Run-Rite Diesel Injection Cleaner

Part No. 1530
32 fl. oz. per bottle, 12 bottles per case

Run-Rite Diesel Injector Cleaner is a detergent concentrate formulated to allow the engine to operate on it as a fuel supply. It delivers immediate cleanup of fuel injectors and fuel system components. Run-Rite DIC is designed for use in fuel injection cleaning equipment, both canisters and machines. It is safe for all fuel system components and does not contain harsh solvents.
### Run-Rite Fuel System Cleaning Products

**Run-Rite Fuel Treatment**  
Part No. 1001  
12 fl. oz. per bottle, 24 bottles per case  
A concentrated formula of detergent additives and solvents to safely and effectively completely clean modern fuel systems. This formula delivers one of the highest dosages of additive chemistry available. Can help improve fuel economy, remove fuel system deposits and clean clogged fuel injectors.

**Run-Rite Oil System Treatment**  
Part No. 1002  
12 fl. oz. per bottle, 24 bottles per case  
A unique blend of oil based detergents, extreme pressure agents and surfactants that will clean gum and varnish from the ring land area, reducing blow by and build-up of oil related induction deposits. Contains an extreme pressure agent to provide additional lubrication protection during cleaning.

**Run-Rite Intake Cleaner**  
Part No. 1003  
12 fl. oz. per bottle, 24 bottles per case  
**LOW VOC Compliant!** A specially formulated blend of solvents, detergent additives and dispersants which will quickly, effectively & safely remove varnish, carbon and gum deposits from induction system. Does not contain any harmful components that produce toxic fumes. Requires installation tool.

**Throttle Body Cleaner (TBC)**  
Part No. 1287 • 4.75 oz. per can, 12 cans per case  
Part No. 1288 • 12 oz. per can, 12 cans per case  
**LOW VOC Compliant!** Formulated to clean the throttle body, throttle plate, and air intake components safely, rapidly & effectively. No chlorinated solvents. Compact can size and multi-direction valve enable spraying in tight, under-hood confines. For use on all carbureted & fuel injected gasoline engines.

**Sledgehammer D.T.I. Cleaner**  
Part No. 1515  
16 fl. oz. per bottle, 12 bottles per case  
Direct-Thru-Injector Cleaner is a detergent concentrate formulated to allow the engine to operate on it as a fuel supply. Delivers immediate cleanup of fuel injectors & fuel system components. For use in injection cleaning equipment (Run-Rite #977 & #9777 tools recommended), both canisters & machines. Does not contain harsh solvents.

**Sledgehammer D.T.I. Aerosol Cleaner**  
Part No. 1560  
11 fl. oz. per can, 12 cans per case  
Direct-Thru-Injector Aerosol Cleaner is designed for direct fuel rail cleaning using a fuel rail adapter tool. Safe for injectors. Oxygen sensor safe. Delivers immediate results!

**Zoom Fuel Delivery Clean-Up**  
Part No. 7012  
12 fl. oz. per bottle, 24 bottles per case  
Designed for the quick-service marketplace. Can help: remove deposits, clean injectors, restore proper injector spray pattern and more. Does NOT contain Alcohol or Toluene. Non-Flammable.

**Zoom Crankcase System Clean-Up**  
Part No. 7010  
8 fl. oz. per bottle, 24 bottles per case  

**Zoom Intake Deposit Clean-Up**  
Part No. 7009  
9 fl. oz. per bottle, 24 bottles per case  

**Zoom Fuel Treatment**  
Part No. 7025  
12 fl. oz. per bottle, 24 bottles per case  

**Induction Cleaning Foam (ICF)**  
Part No. 1293  
4.75 oz. per can, 12 cans per case  
A high-tech formula designed to cling to and penetrate induction system deposits. Foam is able to cling and adhere to upper intake deposits for a more complete cleaning. Cleans, lubricates and protects. For use on all fuel injected, gasoline engines. Also works great with small 2-cycle engines.

**Foaming Intake Cleaner Pre-Soak**  
Part No. 1294  
3 fl. oz. per bottle  
Foaming formula coats internal intake components to soften and help remove stubborn induction deposits. Designed as a pre-soak to be applied utilizing the #9777 (TWINS) installation tool's extension wand prior to intake cleaning.
Shift-Rite 2-Step Transmission Service Kit
Part No. 2089
12 kits per case
This convenient point-of-sale kit box contains both a pre-flush cleaner (Trans Kleen #2060) and an ATF treatment (Trans Guard #2050). Promotes a more complete drain of used ATF and contaminants. Improves ATF circulation. Cleans and conditions seals.
Can also help:
• Improve Performance & Shift Quality
• Extend the Life and Reliability of the Transmission
• Maintain Warranty Requirements
• Reduce Heat - the number one enemy of a Transmission!
• Reduce Wear
• Improve the Lubrication of all Transmission Parts
Also available shrinkwrapped in the following configurations (12 per case):

Shift-Rite Trans Guard
- High Tech Synthetic Protectant
Part No. 2050
10 fl. oz. per bottle, 24 bottles per case
For the ultimate in transmission performance! Trans Guard reduces HEAT - the #1 enemy of a transmission! It also will help reduce wear, sludge and varnish. Trans Guard can help prevent oxidation, clutch chatter, torque converter shudder, and sticking valves and governors. It improves shift quality and can extend the life of ALL automatic transmission fluids.

Shift-Rite Transmission Fix
Part No. 2075
32 fl. oz. per bottle, 12 bottles per case
Helps: Stop transmission slip, clean and lubricate sticking valves for proper shifting, stop leaks, renew polymeric bands to stop slipping and more!

FluidRx Fluid Multi-Test Sheets
Part No. 85128
70 test sheets per case
Each Individual Panel Sheet will test the following fluids: Transmission, Power Steering, Brake, Differential, and Coolant. The sheet allows you to easily and professionally prove to the customer the need for a fluid service.

Shift-Rite Platinum
Universal ATF Treatment
Part No. 2095
10 fl. oz. per bottle, 12 bottles per case
Part No. 2096
15 fl. oz. per bottle, 12 bottles per case
Designed to improve the performance and extend the life of transmission fluid. It is a full synthetic friction modifier that will convert automatic transmission fluids to meet the requirements of modified fluids. It will enhance Dexron/Mercon to perform like a highly friction modified fluid (Such as Honda Premium, Toyota Type T/TII/TIV, Chrysler/ Mopar ATF+3 (7176), +4 (9602) etc). See application guide for more information.

Zoom Universal ATF Modifier
Part No. 2055
10 fl. oz. per bottle, 12 bottles per case
Designed to modify the friction characteristics of Dexron®/Mercon® ATF to perform as a highly friction modified fluid. Call for detailed usage chart.

Shift-Rite Trans Kleen
Part No. 2060
10 fl. oz. per bottle, 24 bottles per case
Trans Kleen is formulated to remove varnish and deposits when servicing transmissions. Promotes a more complete drain of used ATF. Improves fluid circulation and helps extend component life. Can be used when performing a manual pan service, or with a Transmission Fluid Exchange Machine.

Shift-Rite T.U.F. Transmission Ultimate Flush
Part No. 2061
32 fl. oz. per bottle, 12 bottles per case
Shift-Rite T.U.F. is designed to put varnish and oxidized fluid deposits into suspension so that they are flushed out with the old transmission fluid during a complete fluid exchange. T.U.F. is especially designed for Transmission Fluid Exchange Machines, and reduces the amount of new ATF that is required for a clean exchange.

Shift-Rite Automatic Transmission Fluid
Premium automatic transmission fluid packaged in a 12 or 16 quart cube. Visit our website or contact us for ATF compatibility information.

Shift-Rite Premium Synthetic ATF
Part No. 2039 - 12 Quart | Part No. 2099 - 16 Quart

Shift-Rite Premium Multi-Purpose Plus ATF
Part No. 2040 - 12 Quart

Shift-Rite SLV - Ultra Premium Synthetic ATF
Part No. 2063 - 12 Quart | Part No. 2069 - 16 Quart

Shift-Rite GLOBAL Synthetic ATF
Part No. 2079 - 12 Quart
Cool-Rite 2-Step
Cooling System Service Kit

Part No. 5006 (Contains 5007 & 5008)
12 kits per case

Part No. 5050 (Contains 5002 & 5008)
12 kits per case

Easy to use! This convenient kit point-of-sale box contains both a pre-flush cleaner (Quick Kleen #5008) and a Cooling System Treatment (Cool-Rite IV #5007 or Cool-Rite II #5002).

Can help:
- Maintain warranty requirements
- Rapidly remove rust and scale
- Promote a more complete drain of used coolant and contaminants
- Improve coolant flow
- Restore heat transfer
- Protect against breakdown
- Reduce wear
- Clean and condition seals

Cool-Rite II Cooling System Treatment

Part No. 5002
8 fl. oz. per bottle, 24 bottles per case

A unique formula designed to condition and restore coolant. Increases the RA, neutralizes acids and helps prevent corrosion. For all automotive and truck cooling systems using either ethylene glycol or propylene glycol formulas. Can also be used in carboxylate formulas such as Dex-Cool.

Cool-Rite IV Cooling System Sealer

Part No. 5007
12 fl. oz. per bottle, 12 bottles per case

Can help: protect against leaks, lubricate seals, prevent corrosion, and extend component life. Seeks out leaks and stops them! Cool-Rite IV also protects against leaks and lubricates seals. Compatible with all Antifreeze/Coolants.

Cool-Rite Quick Kleen

Part No. 5008
12 fl. oz. per bottle, 12 bottles per case

Can help: Improve coolant flow, restore heat transfer, clean the complete cooling system, and promote a more complete drain of used coolant. Also helps to quickly and safely loosen rust, scale, mineral deposits and other contaminants in the cooling system so that these are flushed out with the dirty coolant!

Accustrip Coolant Test Strips

Part No. 5303
70 test strips per bottle

Tests Dexcool and ethylene glycol.
Kleen-Rite Ultimate ECD
(Engine Cleaning Detergent)
Part No. 3110
1 gallon per bottle, 4 bottles per case
Recommended for vehicles with intervals greater than 3,000 miles between oil changes, as well as newly purchased used vehicles with no prior service records. Can help:
• Improve An Oil Change
• Promote a More Complete Drain of Used Oil
• Remove Dirt & Deposits
• Extend Engine Life
• Reduce Wear

Run-Rite XLN Engine Oil Treatment
Part No. 3015
10 fl. oz. per bottle, 12 bottles per case
Xtreme lubricant with Nano Technology!
Helps:
• Improve Fuel Efficiency
• Reduce friction to extend bearing life
• Protect against sludge formation
Contains an extreme pressure lubricant that is formulated to help prevent the thickening of engine oil during periods of extreme pressure and high engine temperatures. Also helps prevent the formation of sludge, varnish and other deposits, keeping engine components clean to ensure optimum performance.

Kleen-Rite Oil System Cleaner
Part No. 3001
12 fl. oz. per bottle, 24 bottles per case
Kleen-Rite OSC gets added to the engine crankcase for 5 minutes before performing an oil change. This concentrated detergent formula is designed to quickly remove oil system deposits as it circulates through the engine, allowing these to be drained with the used engine oil during the oil change. Designed for use in any crankcase application - gas or diesel engines, as well as transmissions and power steering pumps. Compatible with all synthetic, mineral & ester oils.

B.E.S.T. Engine Treatment
- Buffer Engineered Synthetic Treatment
Part No. 4777
12 fl. oz. per bottle, 24 bottles per case
For the ultimate in engine protection and increased fuel economy! Contains the latest advancements in synthetic PAO technology as well as a unique friction modifier package that delivers proven, tested improvements in fuel economy. One bottle treats 4-5 quarts of oil.

iQ3 Performance Oil
Part No. 7300
1 quart per bottle, 12 bottles per case
iQ3 Performance Oil is patented chemistry designed to help improve fuel economy. It also enhances engine protection and performance, and reduces carbon dioxide emissions. It improves engine oil flow, even at very low temperatures, ensuring that the oil gets pumped to all engine parts quickly. One quart of iQ3 treats 4-5 quarts (3.7-4.7L) of motor oil.

B.E.S.T. Oil System Treatment
Part No. 4300
12 fl. oz. per bottle, 24 bottles per case
Designed to improve an oil change. Its semi-synthetic formula contains a unique friction modifier package that delivers proven, tested improvements in fuel economy.

High Mileage Oil Treatment
Part No. 4221
12 fl. oz. per bottle, 24 bottles per case
Advanced, concentrated formula designed to reduce smoke, prevent viscosity breakdown and more. *Recommended for Vehicles with 75,000+ Miles.*

Run-Rite DIESEL B.E.S.T. Oil Conditioner
Part No. 1477
32 fl. oz. per bottle, 12 bottles per case
Buffer Engineered Synthetic Treatment. For the ultimate in DIESEL engine protection and increased fuel economy! Delivers documented, tested improvements in fuel economy. One quart treats up to a 16 quart capacity.

E.T.P. Sealer
Part No. 3212
12 fl. oz. per bottle, 24 bottles per case
Engine - Transmission - Power Steering Sealer. Helps restore resiliency to seals and gaskets that have shrunk or dried out. Rejuvenates seals to help stop leaks. Mixes with all lubricating fluids.

Engine Revival Service Pack
Part No. 4005
12 packs per case
Each shrinkwrapped pack contains an engine cleaner (#3001 Kleen-Rite OSC) and an oil treatment (#4221 High Mileage Oil Treatment.

Run-Rite Oil Stabilizer
Part No. 3075
32 fl. oz. per bottle, 12 bottles per case
Helps eliminate dry starts - the #1 cause of wear in new engines. Seals worn cylinders to slow oil consumption. Cools and quiets engines and gear boxes. Provides the extra protection needed in 4-cylinder and high performance engines.
**10 • Steer-Rite Power Steering Products**

**NEW SMALLER SIZE!**

For more information on the eX-Rite PSFE machine (shown above) see the “Equipment” section.

**Steer-Rite Flush & Fluid Kits help:**
- Remove varnish and sludge deposits
- Improve fluid circulation
- Improve steering performance
- Reduce wear and noise (whining)
- Condition seals
- Extend steering system life

**Steer-Rite Bladder Bags (for use with eX-Rite):** The bladder bags are designed exclusively for use with the #8800 eX-Rite Power Steering Fluid Exchange Machine.

**Part No. 6008** - 4 kits per case
Each kit contains one 16 oz bladder bag of #6002 Steer-Rite Power Steering Flush and one 64 oz. bladder bag of #6005 Steer-Rite Premium Power Steering Fluid.

**Part No. 6008** - 4 kits per case
Each kit contains one 16 oz bladder bag of #6002 Steer-Rite Power Steering Flush and one 64 oz. bladder bag of #6005 Steer-Rite SYNTHETIC Power Steering Fluid.

**Steer-Rite Bottle Kits:**

**Part No. 6013** - 4 kits per case
**Part No. 6013F (Ford Red)** - 4 kits per case
Each kit contains one 16 oz bottle of #6010 Steer-Rite Power Steering Flush and one 64 oz. bottle of #6011 Steer-Rite Premium Power Steering Fluid.

**Part No. 601011** - 4 kits per case
**Part No. 601011F (Ford Red)** - 4 kits per case
Each kit contains one 64 oz bottle of #6010L Steer-Rite Power Steering Flush and one 64 oz. bottle of #6011 Steer-Rite Premium Power Steering Fluid.

**Steer-Rite Power Steering Treatment**

**Part No. 6001**
4 fl. oz. per bottle, 24 bottles per case
Improves the performance and responsiveness of all power steering fluids including Honda. Helps reduce wear, eliminate rack and pinion stiffness, and free up pumps. Provides superior anti-wear, anti-friction, and anti-corrosion agents. Converts regular power steering fluid to Honda type fluid.

**Steer-Rite Power Steering Flush (PSF)**

**Part No. 6010** (or 6002 in bladder bag)
16 fl. oz. per bottle, 12 bottles per case

**Part No. 6010L**
64 fl. oz. per bottle, 6 bottles per case
Designed to thoroughly clean the power steering system prior to a fluid exchange. Removes varnish and sludge deposits, improves fluid circulation, helps extend component life and improves power steering performance.

Also available packaged in 16 oz. “bladder bag” for use with the eX-Rite PSFE machine (Part No. 6002).

**Steer-Rite Premium Power Steering Fluid**

**Part No. 6011 (or 6005 in bladder bag)**
**Part No. 6011F (Ford Red)**
64 fl. oz. per bottle, 6 bottles per case
Formulated for use in domestic and import passenger vehicle steering systems requiring power steering fluid. Meets or exceeds specifications of GM, Ford, Chrysler and most imports. Contains anti-wear agents and detergent additives.

Also available packaged in 64 oz. “bladder bag” for use with the eX-Rite PSFE machine (Part No. 6005).

**Steer-Rite SYNTHETIC Power Steering Fluid**

**Part No. 6055 (or 6005S in bladder bag)**
64 fl. oz. per bottle, 6 bottles per case
Formulated for use in domestic and import passenger vehicle steering systems requiring synthetic power steering fluid and other hydraulic applications or where the ultimate in performance and protection is desired. It is a full synthetic power steering fluid designed to provide superior performance in extreme conditions.

Also available packaged in 64 oz. “bladder bag” for use with the eX-Rite PSFE machine (Part No. 6005S).

**FluidRx Fluid Multi-Test Sheets**

**Part No. 85128**
70 test sheets per case
Each Individual Panel Sheet will test the following fluids: Transmission, Power Steering, Brake, Differential, and Coolant. The sheet allows you to easily and professionally prove to the customer the need for a fluid service.
Run-Rite was GREEN before

“GOING GREEN”

was the thing to do!

Since our inception in 1993, one of our core values has been to provide products that are not only safe for the vehicle being serviced, but also safe for the technician and safe for the environment.

That’s why we were one of the first in the industry to develop a Low VOC Compliant Product line. A “Low VOC Compliant” product means that it meets or exceeds state regulations for reducing volatile organic compound emissions.

Additionally, our flagship product line - Run-Rite Fuel System Cleaning - has been researched, tested and proven to Improve Fuel Economy (conserving fuel) and Reduce Carbon Emissions (reducing pollution).

We are - and always will be - committed to being environmentally responsible and doing our part to keep Earth GREEN! Please join us in this resolve.

“Reducing carbon emissions is vitally important ...”

Jill Buck
- Founder of the “Go Green” Initiative

Brake-Rite Products & “Green” Statement • 11
**Gear-Rite Synthetic Treatment**
Part No. 4450
4 fl. oz. per bottle, 24 bottles per case
Formulated to improve the performance of gear oils. Gear-Rite’s synthetic friction modifier package improves synchronization for smoother operation and reduces oxidation to help extend component life. It adds thermal stability as well as improved high and low temperature fluidity.

**Gear-Rite Synthetic Limited Slip Supplement**
Part No. 4456
4 fl. oz. per bottle, 12 bottles per case
Specifically formulated for the clutches in limited slip (posi-traction) differentials. LSS is a synthetic and patented formula, that includes an advanced friction modifier to eliminate chatter. It helps transfer heat from the gear box and clutches to provide cooler operation. Gear-Rite LSS also contains rust and corrosion inhibitors for enhanced protection. It can be used in all vehicles with limited slip differentials.

**Gear-Rite Synthetic Protectant**
Part No. 4458
9 fl. oz. per bottle, 24 bottles per case
Contains a high tech formula of synthetic base oils, a complete anti-wear package and a unique friction modifier. Designed to provide high temperature stability and protection from harmful deposits on synchrons and gears. 3 fl. oz. of Gear-Rite SP treats 1 quart of gear oil.

**Gear-Rite Synthetic Gear Oil 75W-90**
Part No. 4453
55 fl. oz. per bottle, 6 bottles per case
*For use in differential machines.*
A heavy-duty, extreme pressure GL-5 synthetic lubricant made using a poly-alpha olefin base stock which delivers the widest range of operating temperatures. This advanced formula contains extreme pressure agents as well as rust, oxidation and corrosion inhibitors to help protect gears and bearings under wide-load conditions.

Use Gear-Rite Synthetic Gear Oil for applications where synthetic oils are required, or for improved performance in other applications.

Meets or exceeds the following:
- API GL-5, MT-1, GL-4, GL-4
- MIL-L-2105E
- U.S. Steel 224
- SAE J2360
- Mack GO-J

**Gear-Rite Premium Gear Oil 85W-140**
Part No. 4454
55 fl. oz. per bottle, 6 bottles per case
*For use in differential machines.*
A premium formula consisting of highly refined base stocks compounded with extreme pressure, anti-wear, limited slip, corrosion inhibitor, rust preventative, and foam suppressant additives.

**Performance Specifications:** For use in all domestic rear axles and manual transmissions, and all heavy-duty truck rear axles. Also for use when:
- API MT-1, GL-5, GL-4, GL-3 gear oils are recommended
- MIL-PRF-2105E is specified
- Extreme Pressure Performance is required
- Mack GO-J gear oils are required

**Gear-Rite Synthetic Gear Oil 75W-140**
Part No. 4455
32 fl. oz. per bottle, 8 bottles per case
Contains a high tech formula of synthetic poly alpha olefin base oils for a high viscosity index and exceptionally low pour point. It contains extreme pressure additives as well as rust, oxidation and corrosion inhibitors to protect gears and bearings under a wide variety of load conditions. Gear-Rite outperforms conventional lubricants. It increases gear life through an extremely high film strength and superior low temperature performance. Additionally, better operating performance provides improved fuel mileage.

**Performance Specifications:** For use in all manual transmissions, manual transaxles and final drives using gear oil. Meets or exceeds the following specifications: API GL-5, MT-1, MIL-L-2015E, US. Steel 224, SAE J2360, Mack Truck GO-J

Be sure to check out our Differential Fluid Exchange Machine in the “Equipment” section of this catalog!
Get the Headlight Kit that REALLY WORKS!

New re-coating process dries crystal clear and rock-hard in 3-5 minutes!

Over time, headlights can oxidize and fail due to weather, chemicals and the environment. Headlight cleaning, restoration and re-coating can save the customer hundreds of dollars because the only other alternative is costly replacement. This service will remove unsafe cloudy or yellow oxidation, and restore the lens to a clear, shiny & safe condition - thereby improving nighttime driver visibility!

Run-Rite Headlight Service Starter Package
Part No. 7490 - Manual Sanding
Part No. 7495 - Machine Sanding
Contains 15 Headlight Service Kits (#7460 or 7465) PLUS one UV curing light (Part 7466), one can of Lens Hardcoat (Part 7410), one spray bottle, sandpaper, alcohol wipes, gloves and towels.

Run-Rite E.M.T.
Electronics Maintenance Treatment
Part No. 6208
13.75 oz. per can, 12 cans per case

Detect, Neutralize and Remove Electronic Acid Build-Up!
The foaming agent in Run-Rite E.M.T. will turn Pink upon contact with acid. It simultaneously detects, neutralizes and removes any acid found on battery terminals, cables, hold-downs, boxes and other areas. We recommend using E.M.T. in conjunction with #6206 Battery Terminal Protectors.

Run-Rite Battery Terminal Protectors
Part No. 6206
2 protectors per pack, 24 packs per case
LIFETIME CORROSION PROTECTION!
After cleaning battery posts/terminals thoroughly using E.M.T. it is recommended that you protect them against future corrosion by utilizing these hi-end battery terminal protectors.

Run-Rite Headlight Restoration Kit
Part No. 7400
12 one-use kits per case
Each kit contains one bottle of Run-Rite’s exclusive cleaning formulas: Prep Liquid, Cleaning Liquid & Sealing Liquid. Also includes sand paper, foam brush, drying towel and gloves - everything needed to perform the service!

Run-Rite Headlight Restoration and Coating Kit - MANUAL Sanding
Part No. 7460
15 one-use kits per case
For Use With Run-Rite Lens Hardcoat (No. 7410)
Each kit contains manual sanding components, alcohol wipes, drying towel and gloves - everything needed to perform the service!

Run-Rite Headlight Restoration and Coating Kit - MACHINE Sanding
Part No. 7485
15 one-use kits per case
For Use With Run-Rite Lens Hardcoat (No. 7410)
Each kit contains machine (disc) sanding components, alcohol wipes, drying towel and gloves - everything needed to perform the service!

Run-Rite Lens Hardcoat
Part No. 7410
6.5 oz. per can, 12 cans per case
For Use As STEP #3 of Run-Rite Headlight Restoration & Coating Kits (Part No. 7460 & 7465)
Dries crystal clear and rock-hard in 3-5 minutes!
Designed to restore and protect headlight surfaces, renewing the appearance and performance of the headlight.

FluidRx Multi-Fluid Test Kit
Part No. 70240
100 test sheets per case
Each kit contains an ISO laboratory test chart and 100 test sheets. Each test sheet contains 6 different fluid tests (Brake fluid, Power Steering fluid, Transmission fluid, Motor Oil, Transfer Case, and Differential).

This is not a color test! It is a patented radial planner chromatographic fluid test that measures the amount of sludge in a lubricant or oil. FluidRx testing provides simple and accurate verification that a fluid should be changed.
Simply place a drop of the sample fluid or lubricant on the FluidRx filter paper then compare the findings to the FluidRx ISO analysis chart. In seconds FluidRx provides an analysis of crankcase and gear oils; power steering, transmission and brake fluids.
Cabin Air Cleaning Service

- Kill mold, mildew, bacteria, viruses (including H1N1) and allergens on contact!
- Eliminates odors
- Pharmaceutical grade formula

F.A.Q. Cabin Air Cleaning Solution

Part No. 7611 - 4 fl. oz. per bottle, 24 bottles per case

For use with the F.A.Q. Spray Gun (Part No. 7626) or the F.A.Q. Atomizer Unit (Part No. 7610) which are designed to clean the entire cabin air system and eliminate interior odors caused by germs, mold, mildew, bacteria, viruses, allergens and more.

F.A.Q. is the Environmentally Sound Alternative to Chlorine Bleach and other disinfectants. It produces no harmful by-products for the technician or the environment. It is free from ozone harming VOC’s and is 100% biodegradable. It is classified as a “Broad Spectrum Disinfectant-Cleaner” that is non-corrosive, non-irritating to skin, and requires no special handling instructions on its label.

Also available:

F.A.Q. Smoke Treatment

Part No. 7613 - 4 fl. oz. per bottle, 12 bottles per case

Designed to instantly counteract tobacco related smoke odors. Smoke Treatment oxidizes tobacco odors and sticky residue left behind by smoking.

F.A.Q. Odor Neutralizer

Part No. 7614 - 4 fl. oz. per bottle, 12 bottles per case

Rather than simply masking offensive odors with a strong scent, Odor Neutralizer attacks odors at their source and destroys the cause of the odor. It leaves behind a gentle, fresh scent.

F.A.Q. Cleaning Tools

We offer two different style tools:

F.A.Q. Spray Gun

Part No. 7626

This spray gun is designed to rapidly atomize and distribute the F.A.Q. Cleaning Solution by attaching to an air hose. This process is very fast, easy and highly effective!

F.A.Q. Atomizer Unit

Part No. 7610

Standalone, pressurized atomizing unit. This tool is designed to be self-contained and “hose free” enabling the technician unrestricted movement.
B.L.A.S.T. Advanced Intake Cleaning Tool

Part No. 9877

Greatly Reduces Intake Cleaning Service Times!

- Utilizes air pressure and a unique mixing nozzle
- Can be used on newer engine designs with limited manifold vacuum sources
- The most thorough and complete method of cleaning fuel & air delivery components

The B.L.A.S.T. (Best Liquid Atomizing Service Tool) 9877 utilizes air pressure and a unique mixing nozzle to deliver a completely atomized intake cleaning detergent/solvent past the throttle plate through the complete intake area of the engine. By finely atomizing the cleaner, the B.L.A.S.T. provides for complete, even distribution throughout the entire intake tract. It can even be used on newer engine designs that have limited manifold vacuum sources. Its unique nozzle assembly atomizes the intake cleaner into a fine mist.

The engineered airflow of the engine carries the detergent/solvent to all areas downstream of the throttle plate. This is the most comprehensive method of cleaning fuel and air delivery components. The B.L.A.S.T.’s design ensures complete distribution of cleaner even in updraft-style manifolds, which normally would cause the cleaner to pool in the lower areas of the manifold.

Use of the B.L.A.S.T. tool helps ensure that the Run-Rite Intake Cleaner reaches its target, and the thermal stability of the Run-Rite chemistry allows it to endure high temperatures and do its job – clean the engine! And every technician will love how fast the B.L.A.S.T. is! It greatly reduces intake cleaning times!

#9760 Step Adapter: Allows you to utilize the 9877 on vehicles with non-accessible throttle bores.

#9812 Carrying Case: Optional professional case.

The TWINS · Premium Dual Cleaning Tool

Part No. 9777

The TWINS tool combines both the #9877 B.L.A.S.T. and the #9677 D.T.I. into one awesome dual tool!

#9760 Step Adapter: Allows you to utilize the #9777 side on vehicles with non-accessible throttle bores.

#9775 Adapters: Optional. A complete set of domestic and most import adapters for use with the #9777 tool. Includes large fuel pressure gauge for system diagnosis. Comes in molded adapter case.

#9776 Carrying Case: Optional professional case.

D.T.I. (Direct Thru Injector) Cleaning Tool

Part No. 9677

For Direct Fuel Rail Cleaning!

- Immediate results!
- Safe for all injectors
- Rugged, durable, stainless steel canister
- Liquid filled pressure gauge
- Brass & stainless steel valves
- Adjustable pressure regulator
- Uses shop air

The Run-Rite #9677 D.T.I. Tool works in conjunction with Sledgehammer DTI Fuel System Cleaner (#1515) to thoroughly clean injectors and fuel system components directly through the fuel rail.

#9775 Adapters: Optional. A complete set of domestic and most import adapters for use with the 9677 tool. Includes large fuel pressure gauge for system diagnosis. Comes in molded adapter case.

#9812 Carrying Case: Optional professional case.
#9600 Professional Intake Cleaning Tool
Part No. 9600

Our most popular intake cleaning tool!
Consists of an extremely durable black powder coated canister. All fittings are made of solid brass and aluminum. It has a brass control valve with teflon seals and a proprietary metered drip tube. Also includes unique vent tube that provides for atomization of the intake cleaner. This provides even distribution of the cleaner for a more thorough cleaning, in addition to adding a measure of safety to the process. A vacuum gauge is also included.

#1906 Advanced R.I.D. Tool
Part No. 1906
For use with #1296 R.I.D. Rapid Induction Deposit Cleaner. This tool creates a more professional appearance for the consumer. Contains a pressure gage to allow monitoring of system status. Professional anodized aluminum.

#1206 Basic R.I.D. Tool
Part No. 1206
Basic tool for use with #1296 R.I.D. Rapid Induction Deposit Cleaner.

#9550 Basic Intake Cleaning Tool
Part No. 9550
The #9550 tool is the most basic tool we offer, yet is far superior to many on the market. It consists of a very durable see through HDPE plastic canister. All fittings are made of solid brass and aluminum and has a brass control valve with Teflon seals. Also includes our proprietary metered drip tube. An anti-siphon pickup tube reduces the possibility of gravity flooding the engine in the event of a stall (adding a measure of safety to the process.)

#9700 Throttle Pedal Depressor
Part No. 9700
Can be used to hold the gas pedal in place as needed during a fuel system cleaning or other appropriate service. Adjustable RPM. Frees up a technician instead of them having to sit behind the wheel during a service.

OBD II Scanner
Part No. 9705

The INTAKE SNAKE!
Snake Tool: Part No. 9710
Snake Heads: Part 1310
- 2 snake heads per tube, 6 tubes per case
Snake Heads: Part 1330
- 1 snake head per tube, 12 tubes per case

The award-winning way to clean the throttle body, throttle plate, and intake track. The Intake Snake Tool’s comfort grip handle and flexible shaft provide easy access to difficult-to-clean throttle bores. Helps:
- Improve Throttle Response
- Improve Idle Quality
- Improve Fuel Economy
- Reduce Emissions

The Intake Snake “Heads” (Part No. 1310) are disposable, pre-soaked cleaning pods that are designed to easily attach to the end of the tool, and are formulated to “eat up throttle deposits.” Safe for coated and sensitive parts. Non-Flammable and Non-Corrosive. Disposable in an ordinary trash receptacle.

You aren’t really still using a rag, are you???

The INTAKE SNAKE is the professional way to Clean Throttle Body & Intake Deposits

Non-Flammable
Non-Corrosive
Safe for sensitive parts.
Shift-Rite TFE-6030 Transmission Fluid Exchange Unit with Dipstick Mode

Part No. 6030

Unique Combo Unit Connects to Cooler Lines OR Through Dip Stick Tube!!!

- Fully automatic, easy operation
- FAST! 2.5 Gallon Per Minute Pump!
- New sensing technology provides the best in accuracy, reliability and performance!
- Superior filtration for longer machine life and less downtime
- Two in-line 10 micron absolute fluid filters capture microscopic particles and contaminants
- Portable, fully interactive. Works with vehicle’s 12-volt battery for easy fluid exchanges
- Cooler line exchange OR fast dipstick process (your choice)
- Remove fluid feature allows easier / cleaner removal of pan for filter change when necessary
- Four capacity selections (4, 12, 16 and 20 qt.) allow for specified amounts of fluid to be pumped through the transmission, for more cost-effective servicing.
- Easy to use adapters allow quick hookup to virtually any automobile make and model.

- Specifications:
  - Dimensions: 39”H x 24 3/4”W x 25”D
  - Shipping Weight: 95 lbs.
  - Fluid Tanks: 24qt. New & Waste
  - Power: 12V DC from vehicle’s battery

Also Available: Shift-Rite TFE-6020 · Dipstick Mode Only

Part No. 6020

Digital Transmission Fluid Exchange Machine

Part No. 9978E

Fully Automatic - Easy Operation!

Digital Display! Microprocessor controlled

- No valves or flow adjustments to operate
- Extremely Fast Fluid Exchange - 2-3 minutes on most vehicles!
- Compact, Rugged Design Powder coated steel base and body
- Environmentally Safe
- “See-Through” Tubes - give dramatic visual confirmation of fluid exchange process
- Built-In Timer · for cleaning cycle
- Allows for Quick Transmission Diagnosis by reading the PRESSURE and FLOW of transmission fluid in circulate mode
- Built-In Pressure Release · eliminates any possibility of over-pressuring transmission
- 12-Volt Power Supply · hooks up to vehicle battery
- Complete Fittings Package Included
- 7.9-Gallon Tank Capacities
- 16” X 20” Footprint, 42” Height
Cool-Rite “A.C.E” Advanced Multi-Service Coolant Machine

Part No. 5410

The most advanced and easy to use Coolant Exchange machine available!

- Extremely Easy To Use! Also Easy To Move! Two 10” rear wheels, 2 locking front casters & handle.
- Rapidly drains and fills coolant with the radiator mouth suction & fill process.
- Quickly & completely exchange all coolant in the system (full backflush).
- Drain for a component change (i.e. water pump)
- Perform a pressure test on the system and radiator cap.
- Environmentally Friendly. Quick-seal connectors keep fluid inside the hoses rather than on the floor.
- Shepherd’s Hook Style Hose Hanger & Recessed Storage Area
- Automatic New & Waste Fluid Tank Shutoff with Indicator
- Step Adapters to fit 1-1/8”, 1-3/8”, 1-1/2” & 1-3/4” Hoses

Specifications:
- Two 7 Gallon New Fluid Tanks
- One 8 Gallon Waste Tank
- Footprint = 23” X 27” • Height = 52”

Reverse Flush Coolant Exchange Machine

Part No. 9977E

- Easy To Use! No messy spills! Connects to cooling system while cool and not pressurized.
- Extremely Fast Process. Flushes and exchanges coolant in just a few minutes!
- Heavy-Duty, Rugged. Plastic top, galvanized steel bottom, powder coated steel body.
- Environmentally Friendly
- Uses Shop Air - No Electricity Needed!
- Completely Removes Contaminated Coolant while simultaneously refilling with new coolant.
- Engine Is Off During Service
- Step Adapters Connect To Majority of Cooling Hoses

Specifications:
- Two Large 7.9 Gallon Tanks
- Footprint = 16” X 20” • Height = 42”

3-Tower Coolant Exchange Machine

Part No. 5403

- Easy To Use! Color coded control valves. No hoses to disconnect. Operates with or without shop air.
- Extremely Fast Process. Flushes and exchanges coolant in less than 5 minutes!
- Heavy-Duty, Rugged - durable aluminum. No Electricity or Batteries Required

Radiator Coolant Exchange Machine

Part No. 5420

- Unique design will handle the needs of SUV’s and tall 4x4’s!
- Exchanges Coolant from most vehicles in 10 minutes!
- Hooks directly to radiator and radiator hose without cutting existing hoses
- New fluid reservoir has built-in lid to reduce chance of spillage when moving
eX-Rite Power Steering Fluid Exchange Machine

Part No. 8800

*For maximum performance, speed and ease of use!*

- **Easy To Use!** Micro-Processor controlled automatic operation with voice instructions
- **Extremely Fast Process** - TAKES JUST 5 MINUTES!
- **Service Eliminates System Contamination**
- **Fluid Sample Button**
  - Reinforces need for service by allowing you to give consumer a sample of the used fluid
- **Secure-Tech Fluid Bags** (Part No. 6008 & 6058 Flush & Fluid Kits)
- **“See-Through” Service Hoses**
  - **Batch Counter** - Allows for service tracking
  - **P.A.M. Valve** - Allows service to be performed on both pump reservoir and remote reservoir systems.
  - **Accessories** - Mini-Wand & optional J-Hook

**Specifications:**

- 12V Power Source Required
- 17”W X 22”D X 37”H --- **NEW SMALLER SIZE!**
- ABS Cabinet & ABS Top
- 5 Gallon Waste Tank

---

12-Volt Power Steering Fluid Exchange Machine

Part No. 6019

- Fast and simple
- All metal construction
- Service time takes less than 10 minutes
- Easy to follow directions on lid
- Small footprint

ToolBox Power Steering Fluid Exchange Kit

Part No. 8300

- Fast and simple
- Small and portable.

---

**Did You Know ...**

Run-Rite can obtain and repair most competitive equipment. If you need to purchase or repair equipment that you do not see in this catalog, please give us a call at **1-877-RUN-RITE** (786-7483).
Brake-Rite BFE-6545 Brake Fluid Exchange Machine

Part No. 6545

Professional unit designed for FAST service times!

- Self-Contained suction gun for cleaning out the master cylinder reservoir
- 4-Wheel brake bleeding capability
- ABS Capable
- Technician can select the sequence for flushing
- Technician-friendly long connection hoses
- Complete with full adapter set

Specifications:
- 12 volt power supply
- Pressure tests the system
- Automatic shut-off

Brake-Rite #6525 Electric Pressure Brake Bleeder

Part No. 6525

- Easy to use! Small and portable. One-man, user friendly and efficient. Eliminates the hassles associated with both air pressure and vacuum-style brake bleeding.
- Adjustable Pressure Regulator. Enables technician to not only adjust the pressure, but also ensures pressure at all 4 wheels. A must for vehicles equipped with brake-by-wire systems.
- Automatic Low Fluid Level Shutoff. Warns technician of low fluid condition then automatically shuts off to avoid injecting air into system.
- SAE-style coupler
- 2.5 gallon capacity. Allows up to 10 vehicles to be serviced between refills.
- Fluid level indicator
- Easy pour fill spout. Makes filling a snap. No de-pressurization necessary.
- Pressure gauge
- Complete with full adapter set
- 12 volt power supply - simply plug into outlet

Gear-Rite Differential Fluid Exchanger

Part No. 9885

- Dual Tank Machine with high speed pumps
- Services differential cases, manual transmissions and 4 wheel drive transfer cases.
- Works on shop air only, therefore there are no pumps or moving parts to break or clog up
- Extremely fast taking only a few minutes to accomplish
- Rapid service times
- Separate 8 quart tanks for petroleum-based and synthetic gear oils
- Small footprint doesn’t take up much space
We bring the CLASSROOM to YOU!

High tech and hands-on training on-site at your location!

Our Service, Technical, Sales (“STS”) Training Program is designed to insure the successful roll out and fulfillment of any maintenance service. The curriculum consists of a 3-tiered on-site training seminar along with a centrally administrated Technical Certification Program. This is followed by ongoing instruction and motivational support.

The STS program is based on the premise that the most important components in the marketing equation are the service technicians and counter people - standing at the last 3 feet of the pipeline between your shop and the customer. Their knowledge and confidence equates to increased sales and profits.

Our proven program instills knowledge and confidence. It also helps refine their customer service skills through both instruction and role-play. The STS program has had a significant impact on our customer’s sales and profits, and it can do the same for yours!

After participating in our Training and Certification Programs, store owners see a marked improvement in Sales and Profits!

In the board room or service bay, Run-Rite brings complete STS (Service-Technical-Sales) training programs to you:

- Instills knowledge and confidence
- Establishes the validity of our products and services
- Ensures proper procedures
- Multimedia presentations and hands-on demonstrations make the training enjoyable and effective!
- Achieves maximum profits!
- Certification reinforces training

SERVICE TRAINING:

- Hands-on demonstrations that teach the technicians to use our products correctly and effectively.

TECHNICAL TRAINING:

- Teaches reasons why products work, supported by endless 3rd party test data, before & after results & more.
- Instills confidence in the superior quality of Run-Rite products.

SALES TRAINING (Counter-Intelligence™):

- Teaches how to effectively sell preventative maintenance services to the consumer.
- Incredible techniques and methods that get dramatic results immediately!
- Shows you how to maximize Point-of-Sale material to make the sale!
- Makes a profitable difference!

Certification tests can be taken online or in print - your choice!
Protect Your Customer’s Vehicle for up to 240,000 Miles!

The Run-Rite Protection Plan is a service based warranty. It provides supplemental coverage for major vehicle components as long as the consumer has necessary Run-Rite maintenance services performed according to the Protection Plan schedule. The service schedule is based on manufacturer’s guidelines. For complete details contact your Run-Rite sales representative or visit the 240K website: www.Run-Rite.com/240K

- Helps drive return business to your service bays
- Gives you a strong competitive advantage
- Motivates consumers to take advantage of maintenance services
- Provides increased consumer satisfaction
- Increase your share of scheduled maintenance business
- Helps protect your customers from unexpected headaches

Run-Rite®
Roadside Assistance

Offer your customers 3 months of complimentary Run-Rite Roadside Assistance (24 x 7 x 365 anywhere in the USA) with each qualified Run-Rite service that they purchase. Contact your Run-Rite sales representative for complete details!

- Towing
- Jump Starts
- Flat Tire Changes
- Fluid Delivery
- Lockout Assistance
Equipment Repair

Run-Rite can obtain and repair most competitive equipment!

If you need to purchase or repair equipment that you do not see in this catalog, please give our equipment division a call at 1-877-RUN-RITE (786-7483).

Run-Rite Government Sales Program

Run-Rite products are available to government agencies across the USA through several government cooperatives. Please contact us for access to our secure website for government product procurement.

As an example, The H-GAC Cooperative Purchasing Program has been serving local governments for more than 30 years, beginning in 1973. From coast-to-coast. Participants include 5,100 government agencies in 43 states, and qualifying non-profit corporations. Benefits of the program include expedited procurement, volume purchasing discounts, on-duty professional staff assistance, research and development of technical specifications, and contract administration.

Premium Point-of-Sale Material

We don’t want you to buy our products ... ... we want you to SELL them!

We have a wide variety of premium, full-color point-of-sale materials designed to educate consumers regarding preventative maintenance services, and assist the service writer in selling these services effectively. Posters, brochures, counter mats and much more! These materials are constantly being refined to meet your needs. Please visit our web site to see samples or contact us for more information.

“Check Your Vital Signs” Waiting Room DVD
Part No. 6302

30-minute loop designed to educate consumers on the need for preventative maintenance services.
Now featuring the Supercats!

The Superheroes of Car Care!™

One of our most exciting new marketing programs revolves around our new team of superheroes: The Supercats! Each member of the team represents a specific Run-Rite product line and has “super powers” they can use to defeat the villains of vehicle longevity!
